

## VNU – VERBAND FÜR NACHHALTIGKEITS- UND UMWELTMANAGEMENT E. V.

ASSOCIATION OF EUROPEAN SUSTAINABILITY- AND ECO-MANAGEMENT PROFESSIONALS

### Our vision

We join with you to bring about changes in the management of organisations towards a sustainable society.

### Our mission

We proactively develop the professional field of environmental and sustainability management in a value- and value-based manner. We empower people and organisations to shape a sustainable future together. To achieve this, we get people together at professionally recognised events. We represent the interests of our members in national and international committees.

### VNU members

Our members develop strategies, set objectives and actively contribute to their implementation. The VNU addresses the following target groups, inter alia:

#### Managers in organisations

For example, with responsibilities in the fields of environmental and sustainability, operations management, controlling, purchasing, leadership, employee participation, management or in external consulting, auditing, legal support or training

#### Experts with an inspection task

Such as in the areas of environmental verifications, auditing, environmental auditing or from supervisory authorities

#### Interested parties

For example, from tertiary education institutions and universities, research institutions, licensing and accreditation bodies or other associations
